ABSTRACT:

PROBLEM TO BE SOLVED: To provide a private catalog producing method which produces a personal fashion catalog for a person who tries on at low cost and also in a short time and a production system.

SOLUTION: Clothes pattern information and standard body information are read from memory 11 and 12 respectively, also form information, cloth information and sewing information are read from a RAM 3 and a clothes image producing part 13 produces a clothes image that shows clothes that fits the form of a person who tries on. The clothes image and a person image of the person who tries on are given to a trying on image generating part 15 and undergo chromakey synthesis and a synthetic image (trying on image) is produced. All of synthetic images that are produced in this way are printed and bound a book and a catalog is produced.
